### **EXAMINER'S AMENDMENT**

Applicant elected without traverse of Group I, Species S1a, claims 1-22, in the Response filed October 23, 2007 has been acknowledged.

This application is in condition for allowance except for the presence of claims 23-67 directed to inventions non-elected without traverse. Accordingly, claims 23-67 are hereby cancelled by the Examiner.

Please see claims renumbering addressed in the last Office Action.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record does not anticipate or make obvious the applicant's claimed limitations of a method for producing a predetermined number of instant lottery tickets comprising the steps of: creating a first file having a record for each of the tickets wherein each of the records includes a ticket identifier and a value data representing the redemption value of the ticket; creating a second file having a plurality of records corresponding to said records in said first file wherein at least a portion of said ticket identifiers are changed into modified ticket identifiers according to a shuffle process; generating a link element associated with said shuffle process wherein said link element permits said modified first identifiers to be converted back into said ticket identifiers; and printing the tickets utilizing said second file such that said modified ticket identifiers and

said value data from said second file are printed on each of the tickets (as per claim 1), in combination with other presented limitations.

Claims 1-22, therefore, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
